

Voice Activation for your Video Entertainment TV

Minburn Communications is keeping up with the trends of using voice activation to control your TV viewing with two options for subscribers to change a channel, search for programming or control more functions with your voice.

AMAZON ECHO® or GOOGLE HOME® (with V13)

With this integration, you can request a channel change and search for a specific program through these home devices using voice command. Simply say *“Alexa, ask Channel Surfer to watch channel 22,”* and the TV will change to channel 22.

Voice Commands:

- Change Channels
- Search Programming
- Recording Control

“Hey Google! Ask Channel Surfer...”

“Alexa! Ask Channel Surfer...”

MyTVs APPLICATION

Convert your tablet or smartphone into a remote control!

Through the MyTVs app on Android and iOS Apple devices, subscribers to Minburn Communications Video Entertainment TV are able to request a channel change, search for programming, play a DVR recording, or complete many other important remote control functions.

Basic Commands:

- OK
