

# Managed Wi-Fi

## Better Wi-Fi, Made Easy.

Is there room for improvement with your Wi-Fi? You don't have to deal with dead zones or worry about the safety of your home network connections.

We've got you covered with our new Managed Wi-Fi Service. If there are rooms in your home that get only a weak Wi-Fi connection (or no connection at all), it's not your broadband internet connection. You need Managed Wi-Fi. This monthly service includes an ultimate carrier-class router for expanded Wi-Fi coverage and network protection. You'll be able to enjoy your devices all over, from the basement craft room to the backyard patio to the man cave in the garage.

The best thing about our Managed Wi-Fi solution is that we take care of it! You don't have to try and select the right kind of router, you don't have to worry about updating firmware – we make sure our Managed Wi-Fi service supports the latest devices, the fastest speeds and helps to keep your Wi-Fi secure.

When setting up your Managed Wi-Fi service, we will assess and map your home, place equipment in an area that maximizes coverage, conduct a signal check for any interference, and if necessary, easily add a mesh unit to expand your Wi-Fi connection to the garage, back yard, or outbuilding.

### Enjoy strong signals, fast connections and peace of mind with Managed Wi-Fi:

- 24/7 Remote and 8-5 Monday-Friday on-site support
- Regular system maintenance including firmware updates
- Assistance with connecting devices
- Feel protected and leave the hassle to us
- Ask about the Installation Discount Program

Managed Wi-Fi Service .....	\$8.99 per month
Managed Wi-Fi Plus .....	\$4.99 per month

Add VETV Protection for \$2.00 and get support troubleshooting your Minburn Communications Video Entertainment TV equipment.

*\*Terms apply; no contract required. Subscribers without Managed Wi-Fi Service who need assistance with their home devices and Wi-Fi connections may be subject to a Remote Support Fee and/or Trouble Isolation Charge. Contact us for details.*
